James Girls Commissions

You can hire Mike to do custom work for you!

Mike likes to stay busy. When there's a lull in orders, he does custom projects for folks who'd like his talents applied to their own pet project. Work-for-hire can be private or corporate, professional or casual. He does company logos and commercial work, but also kit builds, custom drawings, and even custom customer-sponsored photoshoots.

Below is a sampling of a few custom works he has done. As you might expect, most of it has to do with his forte, girl art. Take a look...maybe it'll spark in you an idea you'd like Mike to take on.
